# SHSM LEADERSHIP

Curriculum Relevant • Transformative • Fun

## LEADERSHIP DEVELOPMENT SESSIONS

Innovative OELC leadership development sessions are carefully planned to build students capacity for community building, teamwork, communication, inclusion, and developing a commitment and a sense of responsibility to their group. Students will further learn about their role as leaders in their school and how to develop positive school climates.

## WORKSHOPS

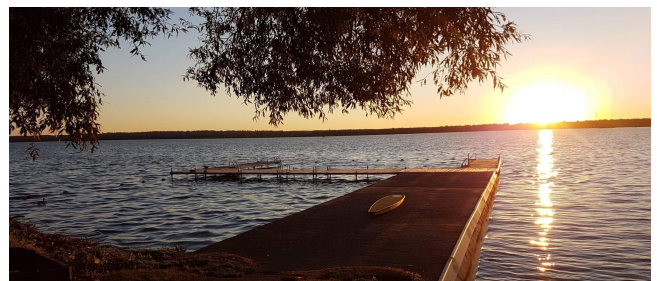

Workshops consist of experiential learning opportunities that take place in indoors and outdoors led by experienced Teacher Facilitators, Outdoor Educators and Guest Facilitators. Each workshop is special and provides students with unique ideas that teach them about themselves and others. Experiences in workshops can positively affect their school and their communities. Workshops may include group initiatives, low ropes course, team building maze, escape rooms, Sherpa Walk, and more.

## FACILITATED DEBRIEFS

During their time at the OELC, students will participate in several round table discussions. Students will develop topics and then lead the discussion in this very powerful student voice session. The goal of the session is to allow students to speak freely about their issues that greatly affect them. At the end, students create action statements that can affect change in the lives of themselves and others.

## CERTIFICATES

Upon completion, students will receive a certificate for each SHSM certification completed. The OELC is happy to work with your school on specific SHSM certifications. For more information, please contact the Centre.

### COST

2 Days, 1 Night  
Up to 4 SHSM certificates  
Accommodations, 4 meals  
\$170/student + HST
